★★★★★ **A Masterpiece After My Own Heart!!!**

By [Michele Wright](#) on May 27, 2014

Format: Hardcover

As a longstanding tenured corporate executive who has worked with top-performing Fortune 500 Pharmaceutical/Biotechnology organizations including Genentech Biotech Company, Novartis Pharmaceuticals and Pfizer Pharmaceuticals, I know and appreciate first hand the importance of the healthcare field in general and its perceived stereotypical impact and limitations on African Americans in particular. And Dr. Oneeka's Williams "Dee Dee Dynamo-Super Surgeon on the Go" series alongside the latest release "Dr. Dee Dee Dynamo's Meteorite Mission" is a mission and operation most noteworthy.

Moreover, being a dual engineer, I am most confident that Dr. William's uniquely crafted book series will help to propel impressionable, disadvantaged, underrepresented and deserving African American youth to shoot for the stars in pursuing careers in science, the medical field and beyond. Foremost, Dr. Williams does a cleverly ingenious job in creatively naming each of the various surgical tools and equipment such as Simon Scissors, Raoul the Retractor, Marky Medicine Bag and The Charger Family. Then she does a phenomenal job in bringing all of these characters in synergy to create not only a remarkable masterpiece but a stimulating series promoting a love of reading and sciences for many generations to come!!!

Without question, "Dr. Dee Dynamo's Dynamo Books" and its latest release will positively cut in the hearts of all of its readers and bring a dose of much love to the hearts of anyone desiring to pursue their passion in life. It is most definitely a "must have" centerpiece and a "must read" masterpiece.
