"The Dr. Dee Dee Dynamo-Super Surgeon on the Go Book Series Is A Masterpiece After My Own Heart!!!"

[Michele Wright, Ph.D.](#)
Corporate Executive & Author

Dr. Wright is the Author of [Dear Success Seeker: Wisdom from Outstanding Women](#), with a Foreword by Camille Cosby, Ed.D. and featuring a collection of 85 original letters from women leaders and history makers including Joyce Meyer, Ruby Dee, Billie Jean King, Rosa Parks, Leeann Chin, Phylicia Rashad, Della Reese, Mae Jemison, Shirley Caesar, and Patti Labelle.

"As a longstanding tenured corporate executive who has worked with top-performing Fortune 500 Pharmaceutical/Biotechnology organizations including Genentech Biotech Company, Novartis Pharmaceuticals and Pfizer Pharmaceuticals, I know and appreciate first hand the importance of the healthcare field in general and its perceived stereotypical impact and limitations on African Americans in particular.

And Dr. Oneeka's Williams *Dee Dee Dynamo-Super Surgeon on the Go* series alongside the latest release *Dr. Dee Dee Dynamo's Meteorite Mission* is a mission and operation most noteworthy.

Moreover, being a dual engineer, I am most confident that Dr. Williams' uniquely crafted book series will help to propel impressionable, disadvantaged, underrepresented and deserving African American youth to shoot the stars in pursuing careers in science, the medical field and beyond. Foremost, Dr. Williams does a cleverly ingenious job in creatively naming each of the various surgical tools and equipment such as *Simon Scissors*, *Raoul the Retractor*, *Marky Medicine Bag* and *The Charger Family*. Then she does a phenomenal job in bringing all of these characters in synergy to create not only a remarkable masterpiece but a stimulating series promoting a love of reading and sciences for many generations to come!!!

Without question, *Dr. Dee Dee Dynamo's Dynamo Books* and its latest release will positively cut in the hearts of all of its readers and bring a dose of much love to the hearts of anyone desiring to pursue their passion in life. It is most definitely a 'must have' centerpiece and a 'must read' masterpiece."

"The Dr. Dee Dee Dynamo Books Are Delightful Books for Children"

[Alvin F. Poussaint, MD](#)
Professor of Psychiatry
[Harvard Medical School](#)

"*Dr. Dee Dee Dynamo's Mission to Pluto* and *Dr. Dee Dee's Meteorite Mission* are delightful books for children. Valuable scientific information meshes with an engaging story. Dee Dee

Dynamo is a marvelous role model for girls. The author shows that science is entertaining and she excites the imagination of young readers. I encourage their parents to read it, too!"

Dr. Alvin Poussaint is the inspiring force behind *The Cosby Show* and its spin-off, *A Different World*. A psychiatrist known for his insightful studies into the needs of the African American family, Dr. Poussaint is a clinical professor of psychiatry and faculty dean for student affairs at **Harvard Medical School**. Dr. Poussaint was chosen as script consultant for the two NBC series after his passionate advocacy for more positive black images in American culture came to the attention of the shows' creators. His influence helped *The Cosby Show* and *A Different World* break new ground in the depiction of African Americans on television. He is the co-author of *Raising Black Children*; *Lay My Burden Down*; and *Come On, People! On the Path from Victims to Victors*, written with Bill Cosby. In his presentations, Dr. Poussaint speaks with refreshing candor on the dynamics of prejudice and the necessities of diversity. He also educates on the use of the media as a learning tool.

"The Dr. Dee Dee Dynamo children's book series is a breath of fresh air."
– Bill Cosby

INTERESTING FACT: The inspiring force behind *The Cosby Show* was Dr. Alvin Poussaint, who was chosen as script consultant after his passionate advocacy for more positive black images in American culture came to the attention of the shows' creators. Dr. Poussaint has also endorsed the Dr. Dee Dee Dynamo books.

Dr. Oneeka Williams

Dr. Oneeka Williams is a Graduate of Harvard Medical School and Johns Hopkins University and is a Practicing Surgeon in Boston, Massachusetts. She was born in Georgetown, Guyana, South America, which was her home until the age of 10 when her family relocated to Barbados.
